33 **Explanation:**

34 The number of Palestinian Christians living in Israel/Palestine has decreased dramatically due to
35 the major displacements from the Nakba in 1948-49, the 1967 War and subsequent upheavals,
36 causing many to become refugees externally as well as internally. At this time the Israeli
37 government leadership has moved to the extreme right, and coincidentally with this there has
38 been increased desecration of holy places, including churches and cemeteries, along with more
39 frequent verbal and physical abuse of both clergy and worshippers. Therefore, it is now even
40 more important to reach out and develop supportive connections with the indigenous
41 Palestinian Christians by building relationships with the St. George’s Cathedral in Jerusalem and
42 individual parishes and their communities. American Friends of the Episcopal Diocese of
43 Jerusalem provides opportunities for both education and support.
