DIOCESAN INVESTMENT FUND | EXECUTIVE SUMMARY

AS OF DECEMBER 31, 2023

Portfolio Results

Pessimistic forecasts and a dour economic outlook set the stage for an unexpected stock bull market boom in 2023. Two contrasting scenarios emerged: the “soft” landing camp, anticipating minor disruptions in the economy; and the “hard” landing scenario, suggesting a recession as a necessary evil to curb inflation. In fact, neither scenario unfolded; inflation has seen significant reduction, and economic growth has proven resilient. This unexpected “no” landing translated into a stellar year for stocks, with global market indices returning over 20% in the year and investment-grade bonds returning over 5%.

The Diocesan Investment Fund (DIF) posted a gain of 9.9% in the fourth quarter and amassed a robust return of 15.6% over the trailing one-year. The DIF remains committed to a diversified asset allocation, consistent with its long-term investment horizon.

Returns as of December 31, 2023

Investments

The Diocesan Investment Committee meets quarterly with the DIF's consultant, Sellwood Consulting LLC, to review capital markets, portfolio performance, asset allocation and manager structure. Sellwood meets with each individual investment manager on an ongoing basis to discuss investment results, strategy and outlook for the future, and any changes or issues within the firm or investment team.
