"Gaza is absolutely one of the most important moral challenges of our time. History will surely judge us by what we did - or didn't do - to stop the U.S. funded genocide of the Palestinian people." - **Ned Rosch**

"The Children of Gaza have suffered horrendous injuries as a result of Israel's bombing campaigns, and Gaza's hospitals were ill equipped to meet the needs of those children even before the events of October 7. Since then, the injuries and the inability to help those children have grown infinitely worse." - **Dr. Clyde Farris**
